# Report of the Board of Management 1927.

---

The town of Felixstowe is in itself one of nature's hospitals. It is gradually becoming known to the medical profession throughout the country as a place to which convalescents may be sent with a fairly sure hope of recovery. This observation, which has been made before, has been fully substantiated during the last year. Beside the regular resident population the town has to accommodate itself to this steadily increasing influx of people who are here for health. It so often happens that the services of the hospital are required by those who never expect to use them. Its fame, or its faults are, therefore, circulated to all parts of the country from which our visitors are drawn, and among this very important class the honour of our town depends upon the efficiency of its hospital.

## A YEAR OF PROGRESS.

In the previous year 1030 patients were treated; this year there were 987. 510 operations were performed, all of which were successfully completed. 246 examinations in the X-Ray Department took place. These figures are set out in the Medical Officers' Report, and I would invite those who are interested in the work of the hospital to read that section with great care. People who are interested, or should be interested, in the Medical Officers' Report belong to two classes, and both should be moved by a thankfulness which can be measured in contributions. The first are those who are actually referred to in the report. They should be thankful for what the hospital has done for them. The second class are those who have had no need for medical treatment, and they should be still more thankful. The Medical Staff, I am sure, will interpret this last sentence in the best way possible. During the year the hospital has been unusually free from criticism. Matters affecting its working have been dealt with by an expert investigation Committee, and anything in the way of correction which such criticism necessitated has been carried out smoothly and in a satisfactory way to all concerned.

## THE WIRELESS INSTALLATION.

Every patient in the hospital, every member of the staff, all the members of the Board of Management and anyone who has anything to do with the working of the hospital join in a hearty vote of thanks

to Mrs. Curtis, Capt. Lankester, Mr. S. G. Hunt and others, the givers of the wireless set. This installation has made a very great difference to the life of the patients during their stay in the wards. It has probably accounted for a new placidity among convalescents. There are many patients who during that period always want something to do, and they ring their bells to call the nurse on the least provocation, and sometimes for reasons that are purely imaginary. The result is, that having the minds occupied by the programmes of the B.B.C., the Nursing Staff is relieved of a great deal of unnecessary labour. Since the inception of the Cottage Hospital there has been nothing which has helped so much to relieve the tedium of convalescence as the generous installation of this wireless set.

#### IN MEMORY OF TWO ORIGINAL TRUSTEES.

Since the publication of the last report two of the original trustees, Mr. C. W. Croydon and Mr. F. W. Mason, have passed away. These two gentlemen were exemplary in their services and contributions. They both took a keen interest in the affairs of the hospital. Mr. Croydon, besides being a member of the first Board of Management, acted as Chairman of the Board for some years, and only when failing health compelled him to curtail some of his public work did he resign that position.

#### GIFTS.

On the last page of this report will be found the names of certain ladies and gentlemen who have given in a lavish way gifts for the work of the hospital. Without such gifts the hospital would lose, not only the actual cash value, which is very considerable, but that delightful element of surprise which makes the matron's room of a popular hospital something like a child's birthday party, any day of the year, with packets, and parcels, and baskets, and hampers all filled with the loving gifts of those who realise their obligations to the sick and the needy.

#### THE COLLECTORS.

To the subscribers, donors, the various institutions and to the collectors of the Contributory Scheme we owe a debt which can only be measured by the fact that without these activities the hospital could not be carried on. During the year the sum of £967 : 19 : 6 has been received from the Contributory Scheme. The names of the collectors appear in the part of the report which deals with this important side of our work. A fairly close competition has been carried on between the North-West and the South-West Wards in which the South-West Ward have been winners by £183 to £171. The outside villages of the two Trimleys, Kirton and Falkenham have also taken an honourable part in this splendid effort. Such work is maintained by the keenness and the tact and the irresistible

persuasiveness of that splendid band of workers who see that the funds are duly collected.

A word of praise must also be given to the ladies who have undertaken the work of increasing the income of the Hospital from Subscriptions. The population has now grown to such an extent that it is not possible for the Secretary and Accountant, charged as they are with other duties, to do justice to the Hospital in this respect, and the Board are indebted to those ladies who have kindly undertaken to canvass the town for fresh subscribers. In thanking them for their help during last year, the Board take this opportunity of commending their work to all those who are in a position to become subscribers and have not yet done so.

#### THE MATRON.

Reference has been made in the previous Report to the services rendered by Miss Carlin, the late Matron. The numerous letters of thanks received from grateful patients, as well as the larger number who wished to participate in a parting gift on the occasion of her retirement, testify to the manner in which she discharged her duties for the period of three years during which the Hospital was under her control.

In the appointment of Miss Collings the Hospital is to be congratulated on securing the services of one whose very high testimonials, whose unique and specialised experience of surgical work, and whose personal efficiency and manner make her admirably suited for the head of our work. Your Board trusts that the Matron may be spared to spend a long and useful term of service in our midst.

Under the Accountant's statement, which is incorporated in this report he notes the fact that the income from Entertainments has fallen off considerably. We hope it will never be necessary to include in this report a list of every entertainment held in Felixstowe. It would make dismal reading if in a parallel column we made a note of the small number of entertainments which make any contribution toward the upkeep of our funds. I should like to feel that every club and every society, every association, every institution, every business house, every private house and every school had a direct connection with OUR OWN hospital fund.

#### YOU MUST READ THIS.

It is pleasant to record instances when patients give practical proof of their gratitude by giving donations to the hospital in addition to the payment of the hospital charges, and these gifts often come from very poor people.

One instance occurred during the year under review when a grateful patient gave a donation of £20 towards the funds of the hospital.

A pathetic instance might perhaps be mentioned of a mother who lost her son in the Great War on a certain 1st of June. Immediately following her great loss she made application for a collecting box to collect money for the hospital in memory of her son, and on *every 1st of June since* the box is brought to the Hospital with a year's collection. Another case might be mentioned of a private patient who, in token of her gratitude, became an annual subscriber, and, although that is many years ago, her subscription, without fail and without application, is regularly received at the Hospital. The lady is a stranger to Felixstowe, and is sometimes on the Continent, or in America, when her subscription becomes due.

#### THE ACCOUNTANT'S STATEMENT.

Mr. Langton has provided the following interesting notes upon our receipts and expenditure :—

"The Board's expenditure is set out, for the first time, on what is known as the "Uniform System," and, in this respect, brings the Annual Report into conformity with the practice of the most up-to-date hospitals, however large. This ought to make the financial part of the Report of greater interest to the friends and supporters of the hospital, and, in addition, it enables the Board to compare the details of their expenditure with those of other hospitals.

It will be seen from the Statistical Tables that the number of In-Patients is the same as in the previous year, but, while this is so, the beds were more fully occupied, as shown in the tables. Nevertheless the increase in expenditure is trifling and it includes valuable additions to the equipment of the Hospital, in regard to which there were no corresponding items in the previous year.

For reasons stated in the previous Report, subscriptions fell off during the year 1926. Owing to the exertions of the ladies who have kindly undertaken the work of collecting subscriptions this deficiency has now been wiped out, and there can be little doubt that, with the experience gained during 1927, subscriptions will reach a record figure in 1928. There is need for this because the income from subscriptions is less, per bed, than the average income, from this source, in hospitals having similar accommodation.

The income from Entertainments has fallen off considerably. Having regard to their past support, it is hoped it will only be necessary to appeal to the many Societies in Felixstowe that cater for the amusement of the public, in order to have this falling off made good before the end of the year.

The expenditure of the hospital is so fully set out that it calls for no explanation, or comment."

#### ACKNOWLEDGEMENTS.

This Report must not close without an acknowledgement of the services freely given by those who help in special ways.

Religious services conducted by the Rev. W. Cocks, Rev. F. Tucker-Harvey, Rev. H. B. Greene and the Rev. A. Ray.

To Dr. Johnston and the Felixstowe Players for time and energy expended in raising a substantial amount for the Building (Extension) Fund ; to Mr. P. J. Humphrey (Felix Hotel), Mr. Gordon McIntyre and party, Felixstowe Sea Angling Association, Mr. Webber and Felixstowe and East Suffolk Coursing Club, and the Suffolk County Football Association, from all of whom we have received handsome donations.

To the very efficient band of workers on "Alexandra Rose Day" whose untiring efforts resulted in a sum of £160 : 0 : 6 being raised, which was an increase of £72 : 15 : 8 over the previous year's collection.

To Miss Mackenzie for massage and for valuable assistance in the X-Ray Department.

To Mr. Frank Potter for paying for site for Nurses' Bathing Hut and painting the same. To the Felix Hotel, Miss Wall and Mr. Slack for periodicals regularly supplied.

To Mr. Bullock for clock winding ; to Mrs. Dexter and the Linen Guild for linen repairs ; to Mr. A. J. Haward for legal advice ; to the Medical, Nursing, Domestic and Clerical Staff. the Board offers its appreciation and thanks.

C. F. FISK, *Chairman.*

# Medical Officers' Report, 1927.

---

The total number of cases treated at the Cottage Hospital during 1927 were 987, of which number 306 were in-patients and 681 out-patients.

Five hundred and ten operations were performed, of this number 176 were enucleation of tonsils, and 27 were appendicectomies, all of which were performed without mortality.

There was a post operative mortality of under 2.4%

Two hundred and forty-six cases were examined in the X-Ray Department.
